PRODUCTS INTRODUCTION

PT-6010 TAPE RETENTIVITY TESTER

Design Standards: GB/T4851, CNS11888, PSTC7

Purpose: Special used in testing glutinosity about the stickiness straps under normal temperature. The testing show that the stickiness straps pasted on the testing board under normal temperature can resist some displacement under gravity. The time of moving away some distance (or disengage completely) or move away (or disengage completely) within some time can show glutinosity about the stickiness straps.

PRODUCTS INTRODUCTION

Characters:

Adopt the structure of completely closing down and avoid the strict requesting condition about the testing process. It has memory function when the testing body falling down to reduce trouble of the operator' s monitoring in the process of test. The structure is beautiful and operation is easy & convenient.

Specifications :

Model	PT-6010-10
Test Position	10 position
Weight	1kg X 10
Timeer	10 groups
Connector	10 pieces
Stainless Steel Plate	SUS#304 X 8
Machine Weight	30kg

INTRODUCTION

企业简介

● COMPANY HONOR 公司荣誉

东莞市民营科技型企业	Private technological type enterprises in Dongguan city
东莞市质量协会会员单位	Member unit of quality association in Dongguan city
旅行箱包相关标准起草单位	Member unit in relevant standards of traveling case and bag
中国胶粘剂协会会员单位	Chinese member unit of adhesive association
中国皮革协会会员单位	Chinese member unit of leather association

● CORE COMPETENCIES 核心能力

公司一直从事材料及其制品的物性检测的开发、研制工作。通过近二十年的发展，已建立起公司的“工程技术研发中心”和精密制造团队。主要开展材料及其制品的物性检测方法 & 检测技术研究，检测方法标准的制定，检测仪器开发研制，检测技术培训等多项业务。已在以下行业具备了强劲、领先的专业优势：

The company had been engaged in the development of the physical performance test about materials and their products, Through nearly 20 years of development, had established the "engineering and technology research and development centers" and precision manufacturing team. Mainly develop the testing methods of material and products and measure technical research, the formulation of the detection method standard, the development of testing instrument, technical training and other business. Had already possessed the powerful, leading professional advantage in the following industries:

● COMPANY VISION 公司愿景

成为先进检测方法的开创者，为企业产品品质提升的方法的引导者。
营造一个创造价值、全员满意的优质工作环境。

Become the pioneers of advanced test methods and the guide of methods for upgrading the quality of product
Creat the high quality working conditions for the creation of value and the staff

● COMPANY MISSION 公司使命

为客户提供产品质量提升的最佳解决方案，消除一切产品的缺陷和使用隐患，为提升人类的生活品质而执着追求！
Provide the best solution to upgrade product quality for customers and eliminate defects and the use of hidden dangers of all products , persistent quest for upgrading the quality of human life.

● CORE VALUE 核心价值

<ul style="list-style-type: none"> • 顾客满意 主动倾听顾客的声音 提供顾客最佳解决方案 • 团队合作 专业分工，相互支持 主动沟通，实时协调 彼此信任，遵守纪律 • 贯彻执行 目标明确，追求成长，坚持到底 • 创造价值 鼓励创新，持续学习 	<ul style="list-style-type: none"> • Satisfy the customers Take the initiative to listen to the voice of customers Provide customers with the best solution • Teamwork Professional division of labor , support each other Active communication , real—time coordination Mutual trust and observe discipline • Carry out Clear objectives, pursue development , persist to the end • Creat value Encourage innovation , continuous learning
提供员工安全、健康、绿色的工作环境	Provide secure , healthy and green working environment for the staff
